

IBL work

1. Research and cook a dish or meal from France/Germany/Spain to serve to your family. You may need to print off the recipe in advance – try to follow one in that language. You could create menu cards in French/German/Spanish.

2. Create a deskmap or mindmap from your vocabulary and knowledge organisers in your book or topic vocabulary. This should be illustrated in colour, have as little English as possible and be something to help you revise a topic – you should be aiming for about 30-40 words or phrases on your mindmap.
