

Press Release
Malmesbury School GCSE results 2018

“I am really pleased for all of our students who have achieved the results they deserve; they now enter the next exciting phase of their education here in our sixth form or at college. These results show the consistently outstanding teaching and wonderful support that our staff provide. Our students should be very proud of the progress that they have made since they started in Year 7; there are many ways of measuring success and examinations are only one amongst a wide range of achievements”.

- 82% of students achieved the benchmark 5A*- C including English and Maths
- 50% achieved the ‘academic’ English Baccalaureate
- 33% of total grades were top grades of A*/A/7/8/9

“In all of these measures these results are the best ever for the school, which is particularly pleasing when examinations are being made more and more challenging. Staff and students have had to cope with unprecedented upheaval in the examination system and these results show the resilience of our students and the professionalism and commitment of our staff. Many students have far exceeded their expectations and have achieved personal milestones of which they should be very proud. We wish all our students well whether they are coming into the sixthform here to study A-Levels or whether they are moving onto college or other providers.”
