

Write an illustrated letter.

Create an illustrated letter to a family member, a friend or someone you know. Fill your letter with news, silly comments, recipes, facts or the kind of daft jokes that will amuse them and make them smile. You could add doodles or spend time on a couple of more detailed illustrations or just make your own notecard and write inside.

You can decorate the envelope as well to amuse/confuse the postman.

Once finished either pop a stamp on and take a leisurely walk to the post box or if they are local deliver it by hand.
